

Uses, Side effects, Dosage, Price & Details Nimesulide 100 mg, Phenylephrine 5 mg, Cetirizine 5 mg, Caffeine 25 mg Tablets

Brand Name: Yana Cold Tablets

Nimesulide 100 mg + Phenylephrine 5 mg + Cetirizine 5 mg + Caffeine 25 mg Tablets:

Uses:

1. **Pain Relief:** Nimesulide, an NSAID (nonsteroidal anti-inflammatory drug), is used to relieve mild to moderate pain such as headache, toothache, and musculoskeletal pain.
2. **Nasal Decongestion:** Phenylephrine, a decongestant, helps alleviate nasal congestion associated with colds, allergies, or sinusitis.
3. **Allergy Relief:** Cetirizine, an antihistamine, is used to relieve symptoms of allergic conditions such as hay fever, allergic rhinitis, and hives.
4. **Alertness:** Caffeine is included in the combination to promote alertness and reduce drowsiness.

Dosage:

- The dosage of Nimesulide 100 mg + Phenylephrine 5 mg + Cetirizine 5 mg + Caffeine 25 mg tablets should be determined by a healthcare professional based on individual needs, age, and medical condition.
- Generally, one tablet may be taken every 4 to 6 hours as needed for pain relief or allergy symptoms.
- It's essential to follow the dosage instructions provided by the healthcare professional or as indicated on the packaging.

Side Effects:

- Common side effects may include:
 - Nausea and vomiting
 - Upset stomach or abdominal pain
 - Dizziness or lightheadedness
 - Headache
 - Insomnia or sleep disturbances (due to caffeine)
- Less common but potentially serious side effects may include:
 - Allergic reactions (rash, itching, swelling, difficulty breathing)
 - Increased blood pressure (due to phenylephrine)
 - Increased heart rate (due to caffeine)
 - Gastric ulceration or bleeding (with prolonged use of NSAIDs like nimesulide)

Precautions:

- Avoid alcohol consumption while taking this medication, as it may increase the risk of liver damage or other side effects.

- Individuals with certain medical conditions such as high blood pressure, heart disease, thyroid disorders, glaucoma, or urinary retention should use this medication with caution and under the supervision of a healthcare professional.
- Do not exceed the recommended dosage or take this medication for longer than prescribed, as it may increase the risk of adverse effects.
